# Hi! I'm DawnM Calder-Murphy

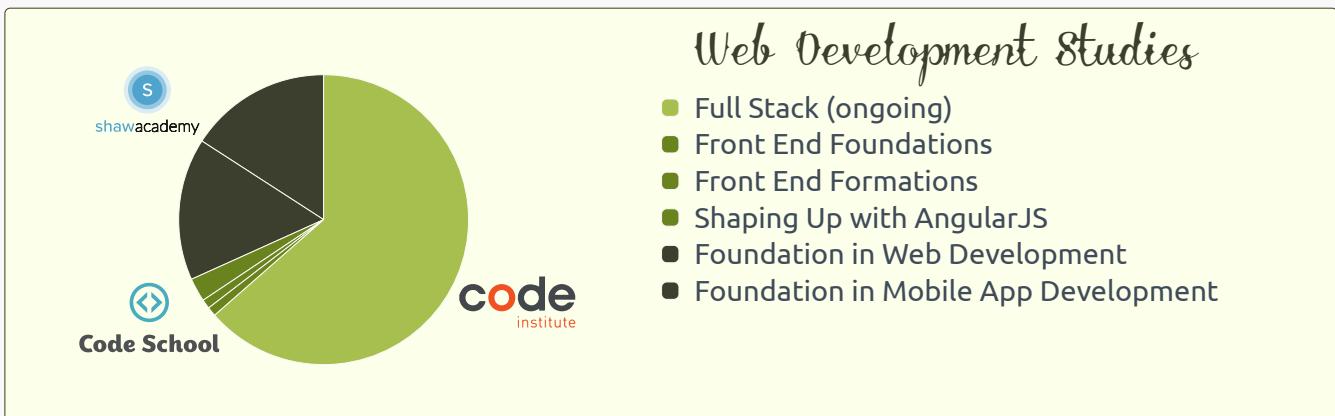

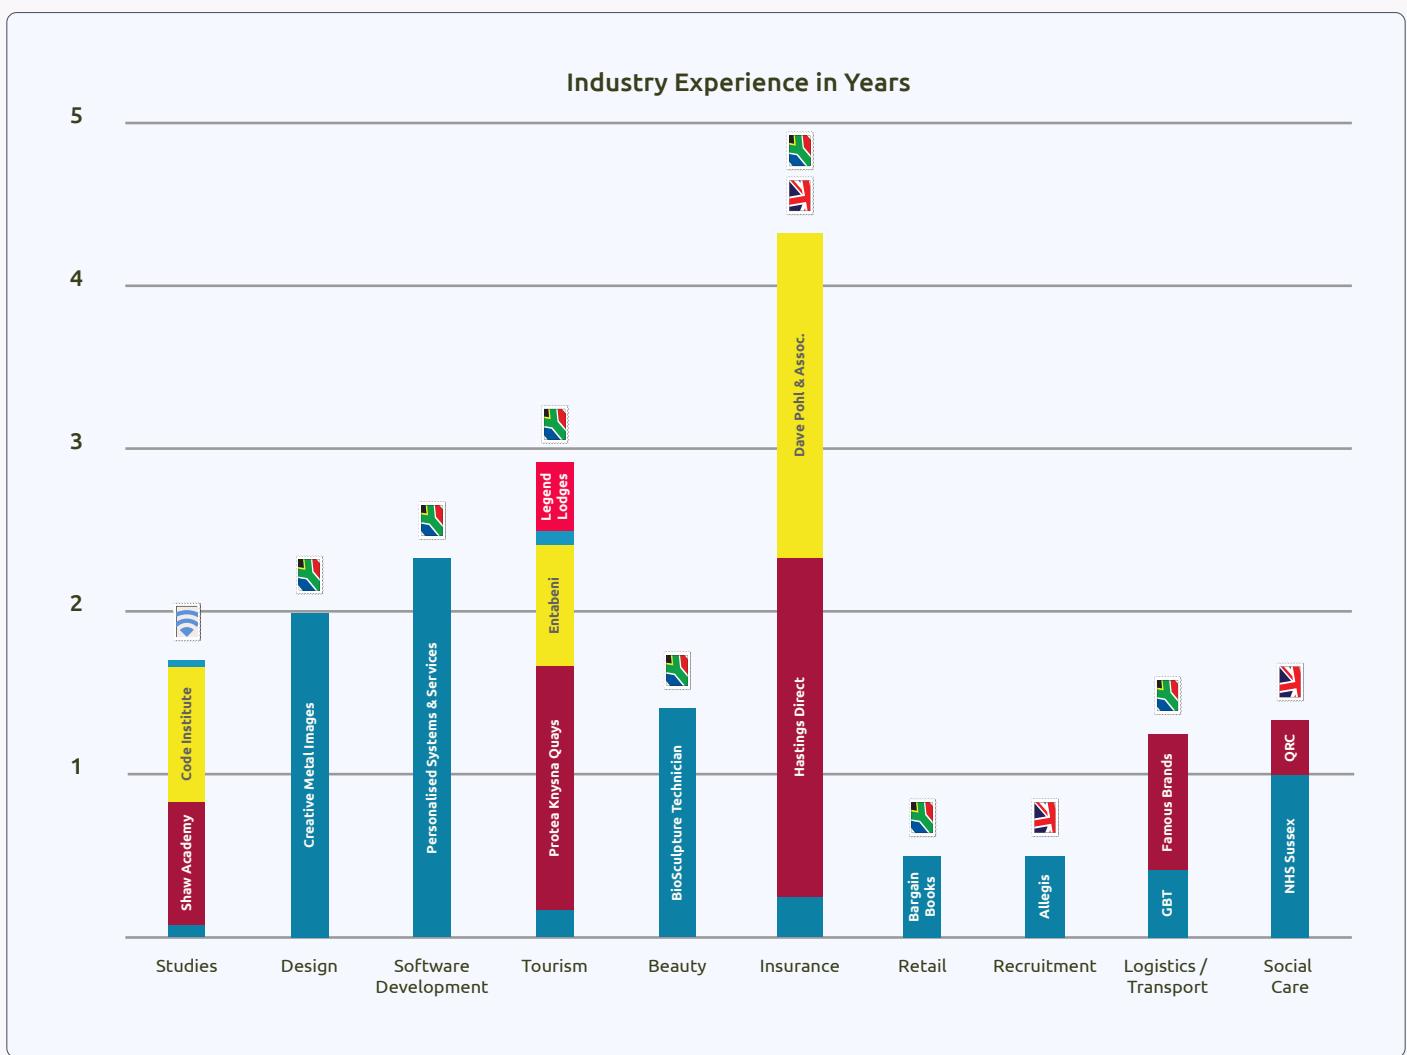

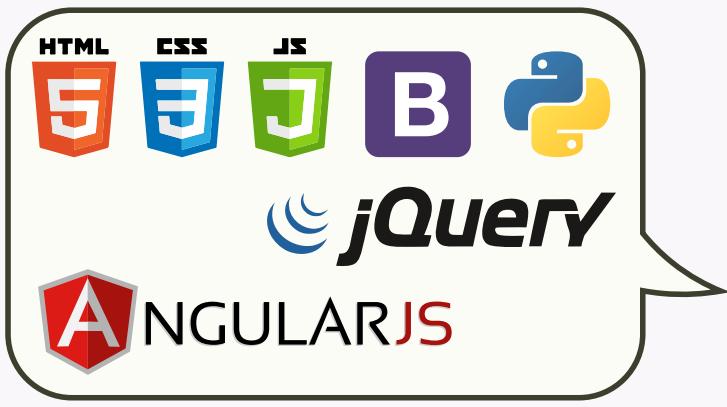

I have completed various graphic design, web design, and web development courses as shown below. I would like to join a company that offers exposure to a range of projects where I can use and develop my new skills. A company with a focus on people or the environment would be ideal, but is by no means essential.

As an Admin Manager and Finance Clerk of 18 years' work experience, my combination of structured and creative skills was often appreciated.

My favourite aspects of previous roles were always on the creative side, whether improving existing forms and documentation for ease of use, or working on branding projects. My new skills will allow me to make these preferences the focus of my career.
